### **Smooth Jazz Saxophonist and Vocalist Johnny James (Dr. J) to Release 5-Track EP with Single *How Deep is Your Love* featuring Chuck Loeb and Jeff Lorber**

**Los Angeles, California - August 4, 2023** - For smooth jazz saxophonist/vocalist Johnny James (Dr. J), the hot music from his magical horn continues. On August 4, 2023, Dr. J released *How Deep Is Your Love*, a “5-Track EP” with lead single “*How Deep Is Your Love*” featuring the late Chuck Loeb and Jeff Lorber. EP and lead single are currently enjoying tremendous success on Spotify, with 284K+ streams and counting. The ultra-beautiful pop ballad was originally recorded in 1977 by the legendary *Bee Gees*. In addition to *How Deep is Your Love* (with its three mixes), Dr. J will add his composition *Jizay*, as well as his previously released *Slippin’*, a Top 10 hit in the U.K. and Canada and Top 100 in the United States.

“The Bee Gees are one of my favorite groups from the 1970s,” said Dr. J. “*How Deep is Your Love* is my all-time favorite song by them and is one of the trio’s most beautiful ballads ever recorded. And hey... how powerful is it to ask that question - How deep is your love - to someone who you are in a serious relationship with? It’s an incredible question and ballad, and I believe the smooth jazz world will love my rendition of the classic.”

The new single features the tasty guitar licks of smooth jazz and jazz fusionist Chuck Loeb, who passed in July 2017. “Chuck recorded with me a little over a decade ago for my then-version of *How Deep is Your Love* on my album, *The Cure*,” said Dr. J. “I’m honored to have the great Chuck Loeb on my rearranged recording of the classic, thanks to the production brilliance of Jeff Lorber.”

“Jeff Lorber’s arrangements on the track give the song a fresh and vibrant sound yet maintain the beauty of what the *Bee Gees* recorded more than three decades ago and what Chuck Loeb recorded with me over a decade ago,” Dr. J said, adding that he always wanted to play or record with Jeff, a jazz fusion keyboard legend. “Jeff played keyboards on the recordings while orchestrating new bass and drum flavoring. As the arranger and producer of my recording of *How Deep is Your Love* – Jeff nailed it.”

Dr. J’s three mixes of *How Deep is Your Love* will include the instrumental main mix (with Chuck and Jeff), the vocal mix exclusively featuring singer/recording artist Darryl Tookes, and the dance mix featuring colorful guitar rhythms by Loeb. Dr. J’s *Slippin’* (Nigel Lewis Stepper’s Mix) reached No.1 for the saxophonist in 2022 on Jazz Juice Radio in the United Kingdom and climbed smooth jazz charts in Canada and the United States. Dr. J’s original composition *Jizay* is a sassy, funky instrumental dance tune with plenty of energy and pizzazz.

Pizzazz is what Dr. J’s music is all about. In March 2022, he released the single *Foolish Heart*, originally recorded by Steve Perry in 1984. Dr. J’s version features the talents of smooth jazz royalty: Paul Brown, Norman Brown, and Greg Phillinganes. The song peaked at No. 7 on the Radio Indie Alliances Top 20 Chart, No. 8 on The U.K. Soul Chart Top 30, and is currently enjoying success on Spotify (258 -plus K streams) and YouTube (141-plus K views).
